## Water Test Price List (Maryland Only)

Please Note: We cannot select a water test for you but we offer these recommendations. At minimum, you should request what was required by the local government when the well was new and also verify with your mortgage company that the test will satisfy the requirements for your mortgage.

Please allow three to five business days for results (starting the day after the water was drawn).

The water tests listed below are a sampling of available tests.

If you need to test for any other items, please call us at 302-993-9100 or reach out to us via email at [ReliableHomeInspections1@gmail.com](mailto:ReliableHomeInspections1@gmail.com).
